Experience

Aysling / Software Developer & Quality Assurance Intern
2016-Present, Ann Arbor, MII

Experience in digital solutions and CRM development. Collaboratively worked with a small development team to deliver new features and bug fixes. Broad development work from frontend to backend tickets. Contributed new ideas and proposed new software implementations to incorporate in the development process. Discussed and provided feedback about UX design.

Star Breaker Studios / Freelance & Personal Projects
2012-Present, Dexter, MI

Self-taught skills using modern and industry-leading software. Acquired research skills to overcome difficult problems. Competency in every aspect of product development and an enriching understanding of the development process for progressive web apps, mobile applications, web solutions, and games.

Gobierno de Pais Vasco / English Teaching Assistant
2017-2018, Onati, Spain

Structured and organized lesson plans and adapted to a unique and challenging work environment. Strengthen communication and interpersonal skills. Taught lessons and improved presentation skills. Broaden my perspective and experience and shared my culture and ideas with peers and students.
